

# plant biology

the department of plant biology at cornell university

## Friday Seminar Series

11:15 AM on Fridays in 404 Plant Science (Whetzel Room) unless indicated otherwise.

SEMINAR DATE	SPEAKER / AFFILIATION	TITLE	HOST
January 23 <sup>rd</sup>	Georg Jander Boyce Thompson Institute	<i>The role of 4-methoxyindol-3-ylmethylglucosinolate in plant defense: new tricks for an old molecule</i>	Bill Crepet wlc1
January 30 <sup>th</sup>	Gerald Edwards Washington State University	<i>Structural and functional diversity in C4 photosynthesis</i>	Klaas van Wijk kv35
February 6 <sup>th</sup>	Eric J. Richards Boyce Thompson Institute	<i>Dissecting cytosine methylation pathways in plants</i>	Klaas van Wijk kv35
February 13 <sup>th</sup>	<b>NO SEMINAR</b>		
February 20 <sup>th</sup>			
February 27 <sup>th</sup>	Sorina Popescu Boyce Thompson Institute	<i>Signaling pathways and networks in plant biotic interactions</i>	Bill Crepet/Klaas van Wijk wlc1/kv35
March 6 <sup>th</sup> refreshments by the DPS	Randall Small University of Tennessee	<i>Phylogeny and diversification in recent and rapid radiations: an example from Penstemon (Plantaginaceae)</i>	Dead Plant Society Janelle Burke jmb328
March 13 <sup>th</sup>			
March 20 <sup>th</sup>	<b>NO SEMINAR – SPRING BREAK</b>		
March 27 <sup>th</sup>	Gregg Howe Department of Energy Plant Research Laboratory at Michigan State University	<i>Molecular mechanism of jasmonate action: Managing plant stress in hostile environments</i>	Georg Jander gj32
April 3 <sup>rd</sup>	Asaph Aharoni Department of Plant Sciences Weizmann Institute of Science	<i>The Ins and Outs of tomato fruit metabolism</i>	Joss Rose jr286
April 10 <sup>th</sup>	David Domozych Professor of Biology Skidmore College	<i>The Charophycean Green Algae: Living at the interface of the microbial and plant worlds</i>	Joss Rose jr286
April 17 <sup>th</sup>	Mike Pollard Michigan State	<i>Deconstructing Cutin and Suberin, the Polymeric Lipid Barriers of the Plant Cell Wall</i>	Joss Rose jr286
April 24 <sup>th</sup>	Jim Leebens-Mack University of Georgia	<i>Unraveling the origin of sex chromosomes in Asparagus</i>	Jerry Davis jid1
May 1 <sup>st</sup>	S.P. Dinesh-Kumar Yale	<i>Driving Innate Immunity: Emerging perspectives on the role for ER, chloroplast and nucleus</i>	Jian Hua jh299

If you have any questions or comments, please contact,  
Bill Crepet (wlc1)
